

## Company overview

**Ayesh Trading company produces all kinds of agricultural tools and has been active in this business for many years. In recent years, this company, has succeeded in producing modern and new agricultural tools and instruments with the highest quality, by launching and mechanizing tools and machines, training personnel with modern sciences and technologies, consulting and cooperating with experienced and specialized engineers in this field and observing all cases based on global standards. The use of raw materials and first-class materials caused the company's products not to be out of order or worn out over time, turning Ayesh brand into a well-known brand in the Middle East region.**

## **Business Description**

The development and advancement of technology in the early decades of the third millennium and the growth in this field makes it no longer possible to provide and insist on the preservation and use of outdated and traditional methods, especially in agriculture, because production with these methods, in addition to excessive difficulties and exhaustion of personnel, bears very low efficiency, therefore, many countries have begun to use high-tech machinery and state-of-the-art equipment.

Nowadays many countries have launched a number of production lines for agricultural equipment and tools, among which the United States is the world's largest producer of this product with a trade value of \$ 31 billion, followed by Japan and the Netherlands in the second and third ranks respectively. In recent years, Ayesh Trading Company has also been specializing in the production and export of agricultural tools by increasing the manpower and specialists, production machines, as well as designing and improving the distribution network. Ayesh Trading company could also be one of the top brands in the Middle East region to meet the needs of a large number of traders and merchants in the region.

## Vision and values

The vision of Ayesh Trading Company in the near future is to meet the needs of customers and increase the quantity and quality of its products by using advanced machinery and equipment, as well as utilizing specialized and committed manpower, to become one of the best brands worldwide.

## Message from the CEO

Sustainable development is the most basic apprehension in today's societies. Undoubtedly, our society, considers morality as a very important factor in its interactions, and it is no exception in our company. Ayesh pays attention to this kind of development in order to achieve moral values. On the other hand, given the importance of the food industry in the world, it should be given an undisputed position for these industries.

**Accordingly, we at Ayesh Trading Company launched large industrial production lines and produced all kinds of agricultural equipment and tools to enter the international markets taking all these values into account. Ayesh Trading Company is striving to consolidate its position as one of the best producers in this field.**
